

SHOWCASE

CHAVONEROS' WALLPAPER CREATOR

ABOUT

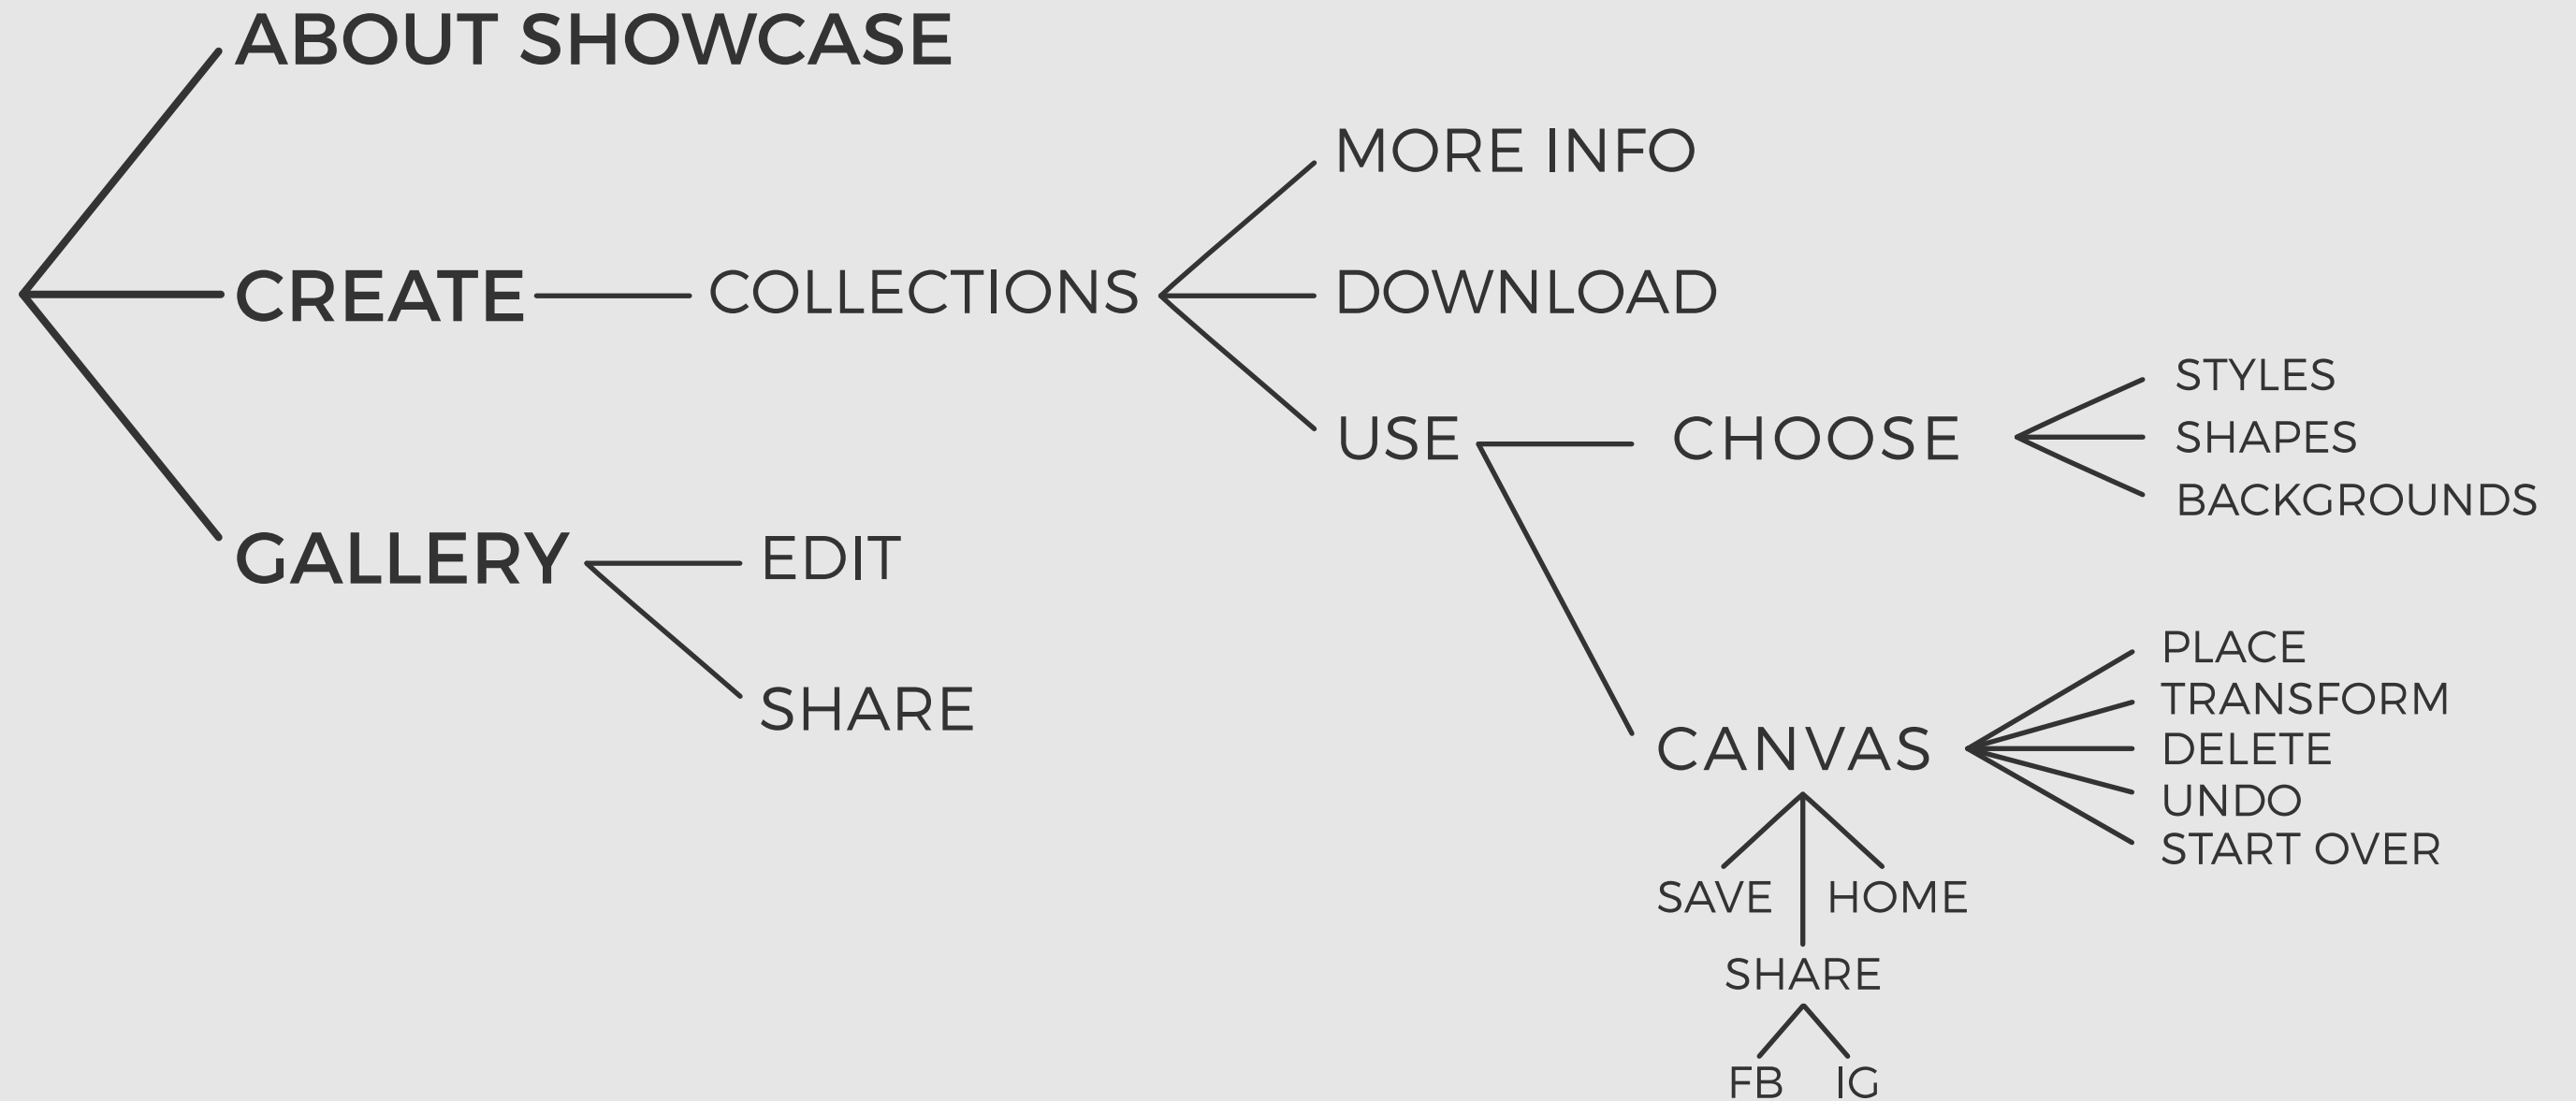

Showcase is a wallpaper creator app that brings together students from Altos de Chavón School of Design, giving users the opportunity to create customized wallpapers for mobile devices that can be shared via social networking media.

HOW IT WORKS

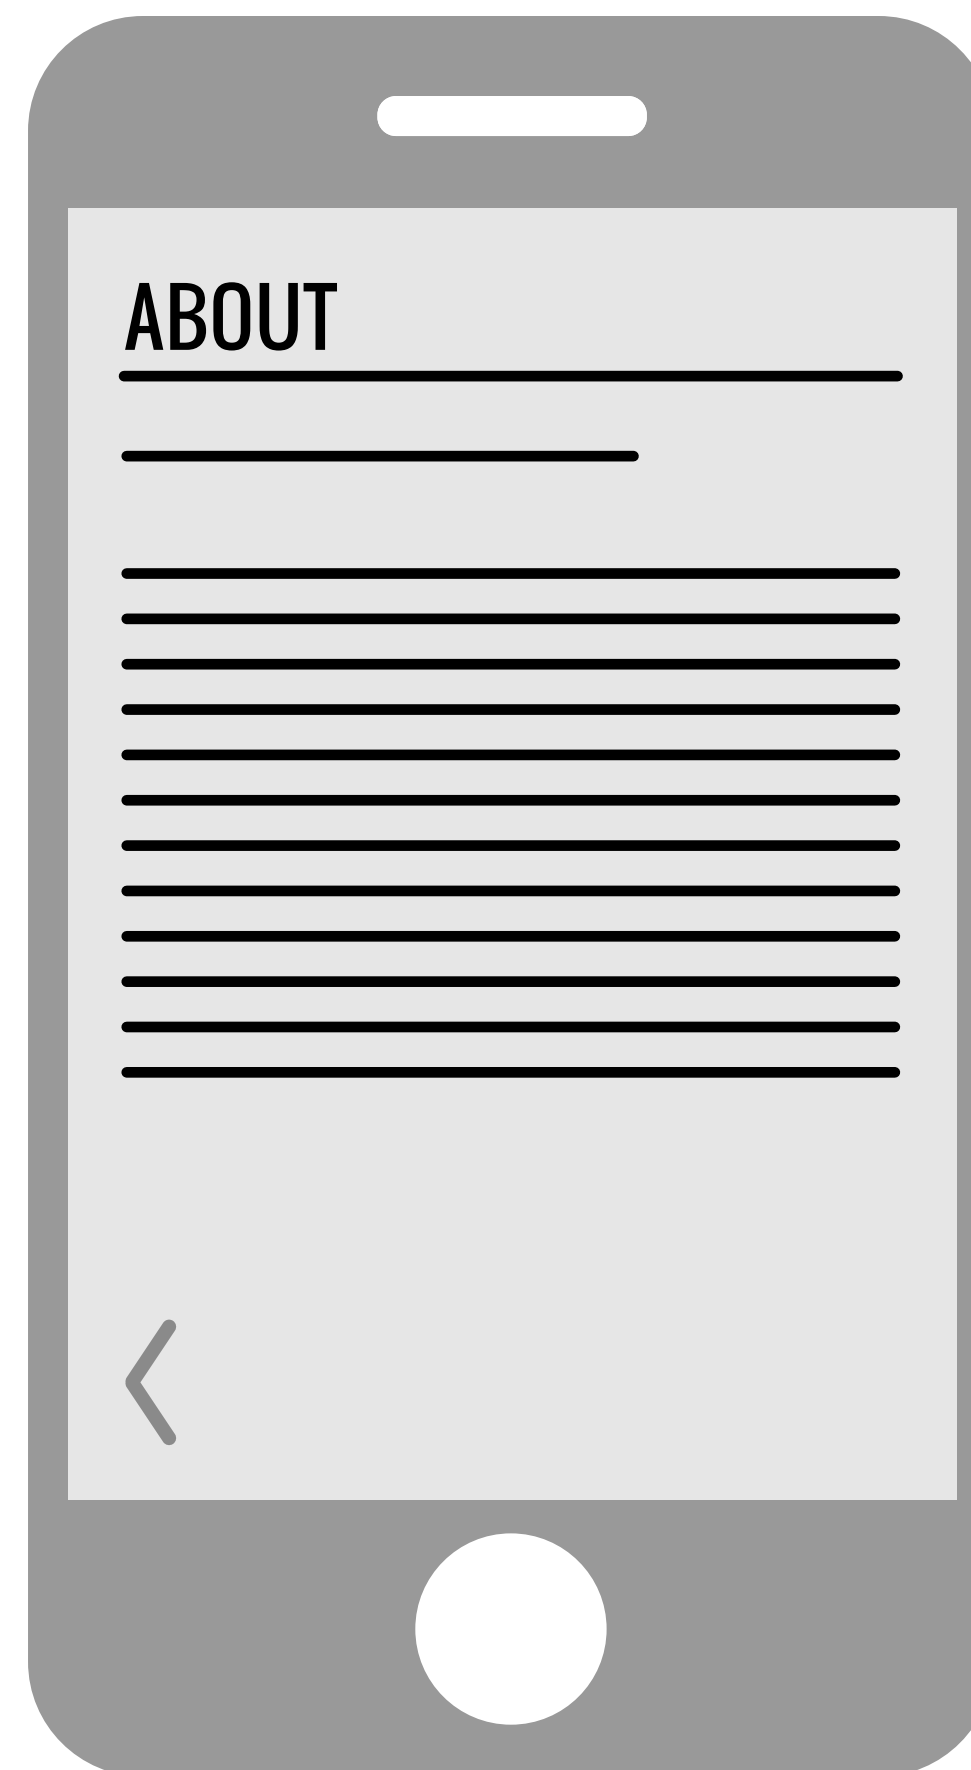

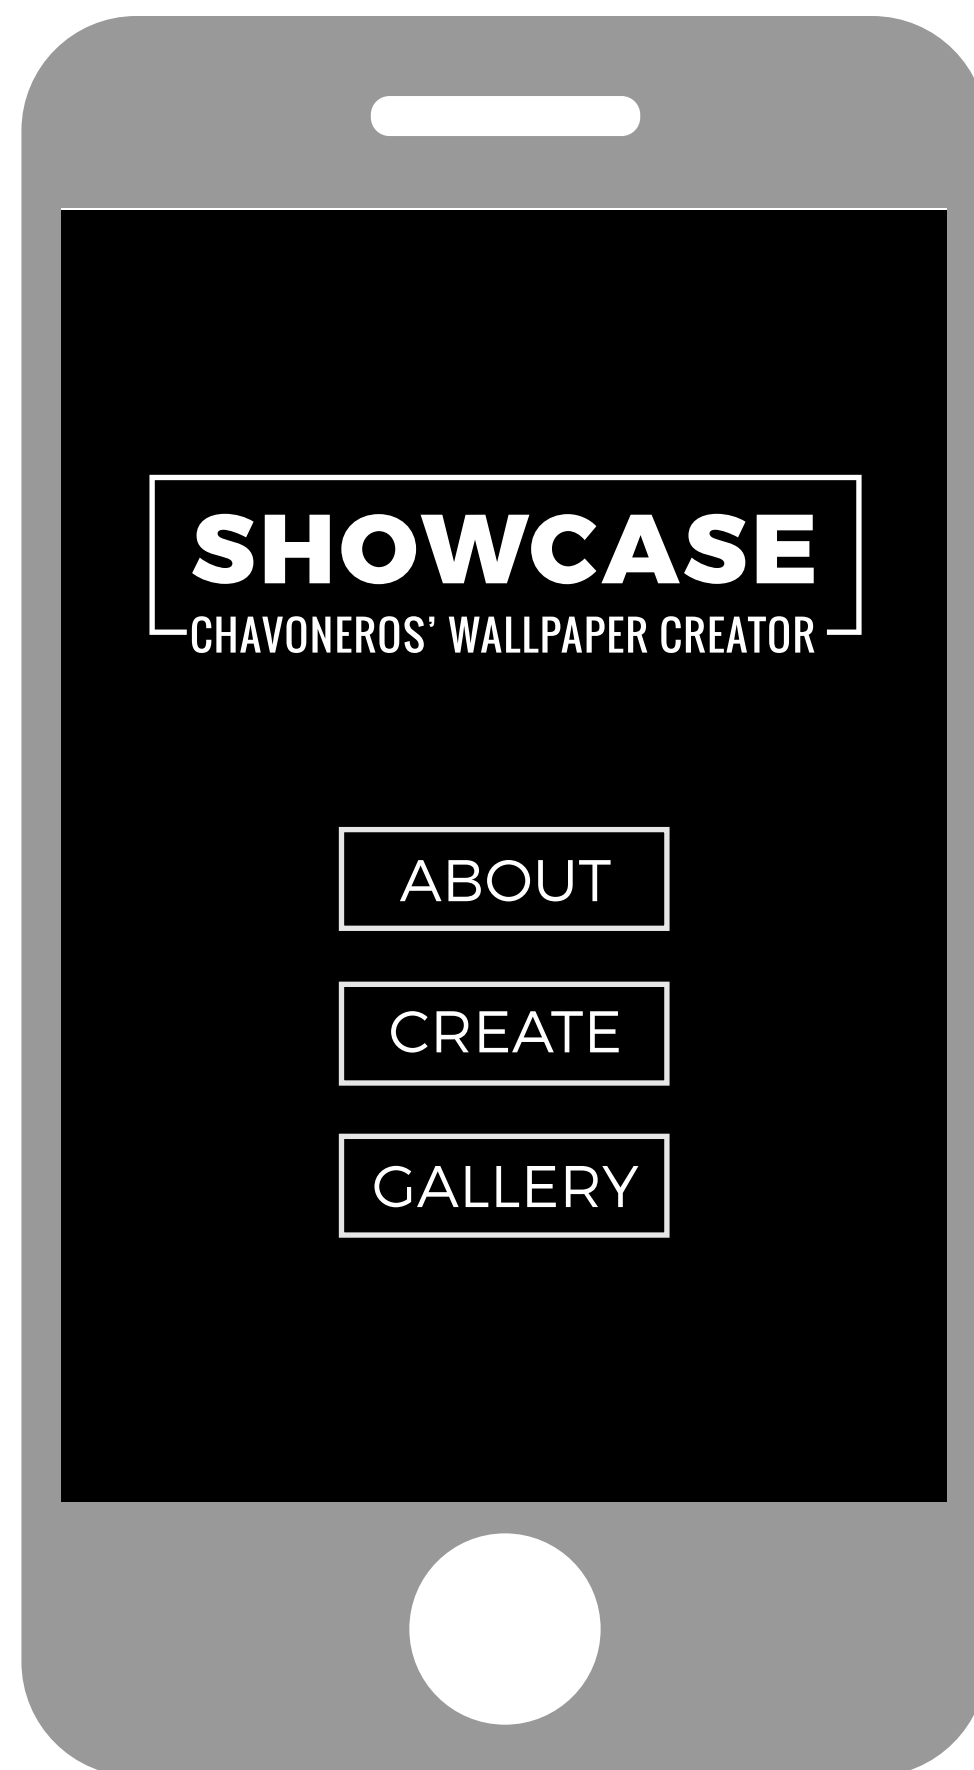

The app contains several student collections, each one with a choice of shapes, styles and backgrounds. The user can then drag the selected shapes onto the screen, and erase, move, scale and rotate them to create compositions.
